Repair and Renew
Help and Information

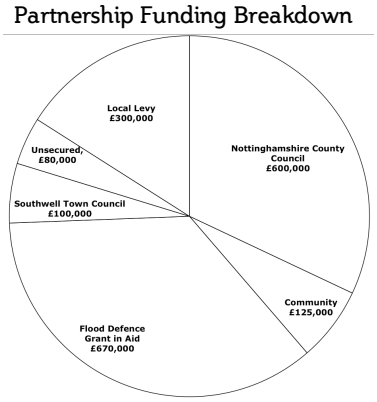
Claim your £5,000 to help protect your property and become more resilient to flooding.

You will be able to find out more about:

- Repair and Renew Grant
- Insurance
- National Flood Forum
- Community Emergency Plan
- Southwell Flood Fund
- Future Mitigation Plans

Southwell Flood Forum does not endorse any supplier or company. At today's event you can see examples of products and services.

Funding update from Southwell Flood Forum



The majority of the £1.875m for Southwell Flood Mitigation Plan has been secured through Government and partnership funding. There is currently a shortfall of £80k, which is yet to be sourced. The community has raised £16k of its £125k target.

All monies raised by the community are held in the Southwell Flood Fund - earmarked solely for mitigation measures in the town. Thousands of volunteer hours 'contributed' by the community have been recognised nationally as an exemplar of 'good practice'. This evidently helped us obtain Government and partnership funding but we still need to raise the remaining £109K to achieve the best solutions.

While the Grant aims to help you install property level protection, you may choose to donate part or the entire Grant to the community, as part of its required contribution to the proposed wider mitigation work planned for 2017 in the Environment Agency's Flood and Coastal Erosion Risk Management Development Programme.

You can download a copy of the form by visiting **tinyurl.com/r-rgrant.**

SOUTHWELL FLOOD FORUM
Community Protection & Support

Purchasing property level protection.

Southwell Flood Forum suggests a four-step guide to making an informed decision when purchasing property level protection (PLP) products:

1. Have an independent survey to establish appropriate PLP.
2. Ensure all products display a BSI Kitemark.
3. Is the installer accredited through a recognised industry scheme?
4. Talk to friends and neighbours who have had similar products installed.

It is important to protect your home, as there is no guarantee that emergency sandbags will be available.

Community Emergency Plan Update

The Community Emergency Planning team in partnership with Nottinghamshire County Council, Nottinghamshire Fire and Rescue Service and the Environment Agency have now successfully trained 60 Flood and Road Closure Wardens in Southwell to help make our community more resilient.

In 2015 the Road Closure scheme will go live, activation of the Street Rep network will progress and Flood Wardens will continue to be trained. If you are interested in becoming a Road Closure Warden or a Flood Warden email **emergencyplan@southwellfloodforum.org.uk** to register your interest.
