# Lowes Wong School

- Part of the FRAMES projects.
- The site is prone to surface water flooding/ run-off.
- Historical flooding on site and from flows leaving the site.
- Scheme to retrofit SuDS across the entire school site.
- Multiple benefits for the school and wider community.
- The school and community are excited about this opportunity.

County Council**

# Lowes Wong School

- The emerging design involves landscaping the school playing fields; storing as much water as practicable as high up the site as possible.
- Conveying surface water down through the site in a controlled manner.
- Managing run-off from buildings by storing water prior to releasing it into the drainage network.

# Lowes Wong School

- Meeting with the school has confirmed they are pleased with the current design and keen to see progress.
- The scheme is currently being modelled to quantify the design proposals.
- Detailed design to commence with full plans and drawings to follow.
- Construction to begin in the school summer holidays.
- Scheme to be completed by September 2019.
